Subject Index

(A) Abstracts, (C) Letters to the Editor, (E) Editorial, (Q&A) Questions and Answers, (S) Supplement

ABDOMINAL SYMPTOMS, NON-SPECIFIC: does ascariasis, trichuriasis and hookworm infection predispose to among adults in endemic areas, 88
ABORTION: entero uterine fistula, 174
ABORTION, INFECTIVE: does it exist and is it connected with AIDS, 187(C)
ADI QUALA: application of solar photovoltaic generation in rural medical centres, 17
AIDS:
health workers attitudes to hospitalized patient in Ile-Ife, Nigeria, urgent need for intervention, 34(C)
infective abortion connection, 187(C)
limitations of the WHO/CDC clinical case definition for Africa, 11
ALBENDAZOLE: for chronic strongyloidiasis, 95(A)
AMBULATORY TRACTION: treatment of supracondylar fractures, 20
AMOEBIASIS: symptomatic intestinal, ornidazole and secnidazole in treatment in childhood, 182
AMOEBIC APPENDICITIS: primary, 43
AMPUTATIONS: reasons for in children (0–18) years in a developing country, 99
ANTHROPOMETRIC MEASUREMENT: utility of arm circumference as screening instrument to identify women at nutritional risk, 163
ANTIBIOTICS: prescription audit in a district hospital, 85(C)
ANTIMALARIAL PROPHYLAXIS:
effects on severity of imported falciparum malaria, 47(A)
for primagravid semi-immunes, 48(A)
ANTIMALARIAL TREATMENT:
cardiac effects with halofantrine, 94(A)
long elimination half life drugs and selection of resistance, 95(A)
APPENDICITIS: primary amoebic, 43
APPROPRIATE TECHNOLOGY: electronic stadiometer for height measurement in health surveys, 24
ARM CIRCUMFERENCE MEASUREMENT: utility as a screening instrument to identify women at nutritional risk, 163
ARTEMESININ: suppositories for cerebral malaria, 48(A)
ARTEMETHER:
experience with in Malawian children, 94(A)
versus mefloquine for falciparum malaria in Thailand, 47(A)
ASCARIASIS:
four patients with pseudotumorous, 123
predisposition to non-specific abdominal symptoms among adults in endemic areas, 88
AUTOLOGOUS BLOOD TRANSFUSION: experience at district general hospital in Zambia, 108
AZITHROMYCIN: new treatment for trachoma, 114(A)

BABY FRIENDLY HOSPITAL INITIATIVE: involvement of health personnel, 186(C)
BACTERAEMIA: in Blantyre, 82(C)
BASIDIOBOLOMYCOSIS: in Ghanaian children, 169
BCG VACCINATION: tuberculosis protection, 95(A)
BIRTH ATTENDANTS: impact of training and supervision on traditional, 103
BLOOD TRANSFUSION: experience of autologous at district general hospital in Zambia, 108
BOOKS REVIEWED:
Cowan GO & Heap BJ, Clinical tropical medicine, 96
Kanji N *et al*, Drugs policy in developing countries, 45
Lankester T, Setting up community health programmes – a practical manual for use in developing countries, 191
Piot P *et al*, AIDS in Africa: a manual for physicians, 45
Prevention of disability: guidelines for leprosy control programmes, 96
Ronde J, ed, Reaching health for all, 96
Williams G & Roy S, Work against AIDS: workplace-based AIDS initiatives, 191
BREAST:
hydatid cyst, 172
pattern of surgical disorders in Zambia, 186(C)
tuberculous mastitis, 170
BREAST FEEDING: baby friendly hospital initiative, involvement of health personnel, 186(C)
BROWN-SÉQUARD SYNDROME: following diphtheria and tetanus vaccines, 74
BRUCELLOSIS: epidemic in Guinea Bissau, 32(C)
BURULI ULCER: cotrimoxazol in treatment of *Mycobacterium ulcerans* infection in West Africa, 61

CAMEROON: letter from, 25
CARCINOMA OF THE PENIS, 171
CEREBRAL MALARIA:
artemesinin suppositories, 48(A)
iron chelation therapy for, 47(A)
CHICKEN POX: neuromyelitis optica (Devic's disease) following, 75
CIPROFLOXACIN:
P. falciparum infection, 47(A)
short course for typhoid fever, 48(A)
single dose for shigellosis, 48(A)
COMMUNITY PARTICIPATION: Kasongo project as case study, 13
CONGENITAL HEART DISEASE: dental caries in children, 82(C)
COPPER SULPHATE: poisoning, 52
CORTICOSTEROIDS: tuberculosis chemoprophylaxis, 36(C)
COTRIMOXAZOL: in treatment of *Mycobacterium ulcerans* infection (Buruli ulcer) in West Africa, 61
CRYPTOSPORIDIOSIS: in West African children, 119(A)

DENTAL CARIES: children with congenital heart disease, 82(C)
DEPRESSIVE ILLNESS: in Zimbabwe, 27

DEVIC'S DISEASE: following chicken pox, 75
DIABETES, 188(C)
DIARRHOEA:
travellers', new protozoan pathogen of humans, 95(A)
unusual case of *Yersinia pseudotuberculosis*-induced in Mangalore, South India, 42
Vibrio cholerae 0139 in Bangkok, 119(A)
DIPHTHERIA AND TETANUS VACCINES: Brown-Séquard syndrome following, 74
DISASTER PREPAREDNESS: role of medical schools, 115
DUODENAL TUBERCULOSIS: in children, 125
DUODENAL ULCER: short antibiotic regimes for *Helicobacter pylori* patients, 48(A)

EFLORNITHINE: pharmacokinetics in Gambiense sleeping sickness, 114(A)
ELECTRONIC STADIOMETER: appropriate technology for height measurement in health surveys, 24
ELEPHANTIASIS: and lymphoedema, treatment for filarial, 119(A)
EMBRYOTOMY SCISSORS: application and safety for fetal decapitation, 139
ENDOSCOPIC BIOPSY: detection of *Helicobacter pylori* in Sudan, 160
ENDOSCOPY: open access, diagnostic role in upper gastrointestinal disorders, 86
ENTERO UTERINE FISTULA, 174
ERGOMETRINE INJECTION: colour, how to recognize low level of active ingredient, 112
EWING'S SARCOMA: in a toddler, 122
EXTERNAL CAROTID ARTERY CONTROL: surgical treatment of advanced malignant scalp and facial tumours in Zaria, Nigeria, 180

FACIAL TUMOURS: external carotid artery control in surgical advancement, 180
FALCIPARUM MALARIA:
antimalarial prophylaxis effects on severity, 47(A)
artemether versus mefloquine in Thailand, 47(A)
Pattarroyo vaccine, 94(A)
rising parasite count during treatment, 47(A)
FETAL DECAPITATION: application and safety of stout embryotomy scissors, 139
FILARIA: treatment for lymphoedema and elephantiasis, 119(A)
FINANCE:
management in times of severe resource constraints, role of the district manager, 7
managing district, 3(E)
FLUOROSIS: endemic area, detrimental effects of high fluoride concentrations in drinking water on teeth in South India, 136
FOREIGN BODIES: tracheobronchial, removal without a bronchoscope, 177

GASTROINTESTINAL DISORDERS: open access endoscopy diagnostic role, 86(C)
GHANA: letter from, selective versus comprehensive primary health care, 76

HAEMATOMA TESTES: due to traditional massage in a neonate, 81(C)
HALOFANTRINE: cardiac effects in antimalarial treatment, 94(A)
HEALTH CARE: sustaining in poor countries, 145(E)
HEALTH EDUCATION: patient as starting point in leprosy control, 151
HEALTH INFORMATION SYSTEM: community based, using lot quality assessment techniques to evaluate quality of data, 148
HEALTH PASSPORT, HOME-BASED: tool for primary health, 21
HEIGHT MEASUREMENT: appropriate technology for health surveys, electronic stadiometer, 24
***HELICOBACTER PYLORI*:**
detection in endoscopic biopsies in Sudan, 160
faecal-oral transmission, 48(A)
short antibiotic regimes for patients with duodenal ulcer, 48(A)
HEPATITIS B VIRUS: reusable needles as major risk factor, 36(C)
HIP: reduction of posterior dislocation, 134
HIV INFECTION:
acute tuberculous pancreatitis, 171
health workers attitudes to hospitalized AIDS patient in Ile-Ife, Nigeria, urgent need for intervention, 34(C)
Kingella kingae septicaemia in association with, 127
practical method to reduce risk in African women, 188(C)
HOOKWORM INFECTION: predisposition to non-specific abdominal symptoms among adults in endemic areas, 88
HYDATID CYST: breast, 172

INFERTILITY: tubal, easy screening test, 178
INJURIES: inflicted by animals presenting to Riyadh Armed Forces Hospital, a survey, 84(C)
INTRAUTERINE GROWTH RETARDATION: health consequences in southwestern Ethiopia, 64
IVERMECTIN: obstacles to community-based distribution in Dingila health zone in northeastern Zaire, 33(C)

JAUNDICE: pitfalls in diagnosis and management of patients in the tropics, 128

KANGAROO METHOD: for treating low birth weight babies in a developing country, 57
KASONGO PROJECT: 132(C)
case study in community participation, 13
***KINGELLA KINGAE*:** septicaemia in association with HIV disease, 127

LABOUR: partograph inclusion in latent phase, 190(C)
LADAKH: tetanus incidence at high altitudes, 78
LEISHMANIASIS:
cutaneous, epidemiology of in Nigeria, 84(C)
differences between post-kala-azar dermal and leprosy, 120
LEPROSY:
difference from post-kala-azar dermal leishmaniasis, 120
patient as starting point for health education in control, 151

LETTER FROM:
Cameroon, 25
Ghana, selective versus comprehensive primary health care, 76
Ladakh, is tetanus rare at high altitudes, 78
LOT QUALITY ASSESSMENT TECHNIQUES: use in evaluation of quality of data in community-based health information system, 148
LOUSE-BORNE RELAPSING FEVER: in Ethiopia, 114(A)
LOW BIRTH WEIGHT BABIES:
health consequences of intrauterine growth retardation in southwestern Ethiopia, 64
kangaroo method for treating in a developing country, 57
LUMBAR NEUROFIBROMA: patient with neurofibromatosis, 173
LYMPHOEDEMA: and elephantiasis, treatment for filarial, 119(A)

MALARIA:
artemesinin suppositories for cerebral, 48(A)
artemether experience in Malawian children, 94(A)
artemether versus mefloquine in Thai falciparum, 47(A)
cardiac effects of halofantrine in antimalarial treatment, 94(A)
frequency of mixed falciparum and vivax, 48(A)
iron chelation therapy for cerebral, 47(A)
long elimination half life drugs and selection of resistance, 95(A)
long-term mefloquine prophylaxis, 94(A)
mefloquine compared with other chemoprophylactic regimens for East Africa, 94(A)
Pattarroyo vaccine, 94(A)
reappearance of vivax in West Indies, 48(A)
rising parasite count during treatment of falciparum, 47(A)
still waiting for a vaccine, 97(E)
MALIGNANT HYPERTHERMIA: treated without dantrolene, 185(C)
MALIGNANT SCALP: external carotid artery control in surgical advancement, 180
MASTITIS: tuberculous, 170
MEASLES: impact of national immunization programme on admissions to the major children's hospital in Yangon, 141
MEDICAL EQUIPMENT: proposed list of basic, 50
MEDICAL SCHOOLS: role in disaster preparedness, 115
MEDICINE: poor cousin, 5(E)
MEFLOQUINE:
comparison with other malaria chemoprophylactic regimens for East Africa, 94(A)
long-term prophylaxis in malaria, 94(A)
versus artemether for falciparum malaria in Thailand, 47(A)
MUCORMYCOSIS: zygomycosis, 41
***MYCOBACTERIUM ULCERANS*:** cotrimoxazol in treatment of infection (Buruli ulcer) in West Africa, 61
MYOSITIS OSSIFICANS PROGRESSIVA: case report from Nigeria, 73

NEUROFIBROMATOSIS: solitary lumbar neurofibroma, 173
NEUROMYELITIS OPTICA: (Devic's disease) following chicken pox, 75
NORAFLOXACIN: for *P. falciparum* malaria, 48(A)

OBSTETRICAL VACUUM EXTRACTOR: easily made, 183
OBSTETRICS: uterine ruptures in rural area in Zaïre, 90
OLEANDER: rare poisoning with cerebra thevetia (yellow oleander), report of three cases, 37
ORNIDAZOLE: treatment of symptomatic intestinal amoebiasis in childhood, 182

PAEDIATRIC SKIN DISEASES: prevalence in rural Honduras, 87
PANCREATITIS: acute tuberculous associated with HIV infection, 171
PATTARROYO VACCINE: falciparum malaria, 94(A)
PENIS: carcinoma, 171
PHYSICIANS: geographic distribution in Oyo State, Nigeria, 132(C)
***PLASMODIUM FALCIPARUM*:**
ciprofloxacin for infection, 47(A)
norafloxacin for, 48(A)
***PLASMODIUM VIVAX*:** chloroquine-resistant, 47(A)
POISONING:
copper sulphate, 52
prevalence of parental medication on children before going to hospital, 181
rare with cerebra thevetia (yellow oleander), report of three cases, 37
PRE-HOSPITAL MEDICATION: prevalence of parental medication on children, 181
PREGNANCY:
ectopic, 176
first-time as apparent motive for referral to a Zimbabwean district hospital, 138
PRESCRIPTION AUDIT: for antibiotics in a district hospital, 85(C)
PRIMARY HEALTH CARE:
home-based health passport as tool, 21
proposed list of basic medical equipment, 50
selective versus comprehensive in Ghana, 76
PROPTOSIS: evaluation in paediatric patients in Africa, 166
***PSEUDOMONAS AERUGINOSA*:** resistance pattern occurring in northern part of Bangladesh, 187
PULMONARY TUBERCULOSIS: sputum smear negative, 82(C)
PURIFIED PROTEIN DERIVATIVE: importance of early erythematous reaction in skin testing, 157
PYELOCUTANEOUS FISTULA: tuberculous, 175
PYOMYOSITIS: pattern in Zaria, 188(C)

QUANTITATIVE BUFFY COAT: for diagnosis of trypanosomes, 54
QUININE: intrarectal injectable as safe alternative to intramuscular injectable, 32(C)

RAPID RURAL APPRAISAL, 81(C)
REFERRAL: first-time pregnancy as apparent motive for a Zimbabwean district hospital, 138
RELAPSING FEVER: in Ethiopia, 114(A)
RENAL STONE: neglected large, 123
REPORTS: relevant from remote places, 49(E)

RESOURCES:
financial management in times of severe resource constraints, role of the district manager, 7
managing district finances, 3(E)
REUSABLE NEEDLES: major risk factor in acute virus B hepatitis, 36(C)

***SALMONELLA PARATYPHI A*:** ventricular septal defect with endocarditis caused by, 40
SCABIES:
unusual complication, 124
unusual surgical complication of traditional prevention measures, 38
SECNIDAZOLE: treatment of symptomatic intestinal amoebiasis in childhood, 182
SELF PRESCRIPTION: prevalence of parental medication on children before going to hospital, 181
SEXUAL ABUSE: children in rural Zimbabwe, report from Elim Hospital, 81(C)
SHIGELLOSIS: single dose ciprafloxacin, 48(A)
SKIN DISEASES: prevalence of paediatric in rural Honduras, 87
SLEEPING SICKNESS: eflornithine pharmacokinetics, 114(A)
SOLAR VOLTAIC GENERATION: application in rural medical centres, Adi Quala, 17
SPLEENS, BIG: African patients, 47(A)
SPLENIC ASPIRATION: via intercostal space, 131(C)
STERILIZATION: simple method for formalin, 135
STROKE: diurnal variation in Ghana, 154
STRONGYLOIDIASIS: albendazole for chronic, 95(A)
SUPRACONDYLAR FRACTURES: treatment by ambulatory traction, 20
SURGERY: poor cousin of medicine, 5(E)
SUTURES: simple method for formalin sterilization, 135

TEETH: detrimental effects of high fluoride concentrations in drinking water in an endemic fluorosis area in South India, 136
TESTES: haematoma due to traditional massage in a neonate, 81(C)
TETANUS:
incidence at high altitudes, Ladakh, 78
TRACHEOBRONCHIAL FOREIGN BODIES: removal without a bronchoscope, 177
TRACHOMA: new treatment, 114(A)
TRADITIONAL BIRTH ATTENDANTS: impact of training and supervision, 103
TRADITIONAL HEALING, 34(C)
TRICHURIASIS: predisposition to non-specific abdominal symptoms among adults in endemic areas, 88
TRYPANOSOMES: quantitative buffy coat for diagnosis, 54
TRYPANOSOMIASIS: eflornithine pharmacokinetics in Gambiense sleeping sickness, 114(A)
TUBERCULOSIS: 34(C)
BCG vaccination, 95(A)
chemoprophylaxis and corticosteroids, 36(C)
control programmes, 133(C)
duodenal in children, 125
importance of early erythematous reaction in purified protein derivative skin testing, 157
mammary gland, 170
pancreatitis associated with HIV infection, 171
pyelocutaneous fistula, 175
sputum smear negative pulmonary, 82(C)
TUMORAL CALCINOSIS: successful treatment by flap surgery, 126
TYPHOID FEVER: short course ciprofloxacin, 48(A)

URETEROSIGMOIDOSTOMY, 46(Q&A)
URINARY TRACT ISOLATES: in rural Africa, 131(C)
UTERINE RUPTURES: obstetric in rural area in Zaïre, 90

VENTRICULAR SEPTAL DEFECT: with endocarditis caused by *Salmonella paratyphi A*, 40
***VIBRIO CHOLERAE*:**
comparative study of two transport systems, 35(C)
strain 0139 in Bangkok, 119(A)
VITAMIN A DEFICIENCY: evaluation in Yelimane Circle of Mali, West Africa, 70
VIVAX MALARIA: reappearance in West Indies, 48(A)

WAR: and health, a view of Africa, 1(E)
WHO/CDC CLINICAL CASE DEFINITION FOR AIDS: limitations for Africa, 11

***YERSINIA PSEUDOTUBERCULOSIS*:** unusual case of diarrhoea in Mangalore, South India, 42

ZIMBABWE: depressive illness, 27
